PRINETO SMART CONNECT

PRINETO Smart Connect is a radio based, intelligent system for the individual room control of heating systems, consisting of a base station and digital room controllers. Optionally, the system can be connected to a cloud and controlled via App.

Special features:

- Modern and innovative design
- Easy and user-friendly installation
- Controllable via App
- Integrated hydraulic balancing*
- Secure data transmission thanks to AES-128-encryption

Article numbers:

- 878 386 313 (**PRINETO** SMART CONNECT Controller)
- 878 386 310 (**PRINETO** SMART CONNECT Gateway)
- 878 386 311, 878 386 312 (**PRINETO** SMART CONNECT Base)

* Fulfills the requirements for automatic hydraulic balancing acc. to BAFA. (Certified by TÜV)

IVT HIGHLIGHTS

- ✓ Subsidiary of the global Würth Group
- ✓ Modern production facilities in Germany
- ✓ Direct sales without intermediaries
- ✓ 24 h delivery service in Germany and Austria
- ✓ Competent expert advisors on site
- ✓ Site instruction and supervision
- ✓ Design Support
- ✓ B2B Online-Shop

Components features

The **PRINETO** SMART CONNECT Gateway is the basic requirement for the connection of SMART CONNECT components to the cloud.

Advantages **PRINETO** SMART CONNECT Gateway:

- Simple and user-friendly
- Server location in Germany
- Wireless connection with WLAN
- Automatic software updates

The **PRINETO** SMART CONNECT Base: radio-based and intelligent control and connection block for the precise, centrally controlled individual room control of underfloor heating systems

Advantages **PRINETO** SMART CONNECT Base:

- Automatic hydraulic balancing
- Operation without internet connection possible

Thanks to the **PRINETO** SMART CONNECT Controllers, an automatic room-by-room control of the room temperature and the collecting data of humidity of the air, is possible.

Advantages **PRINETO** SMART CONNECT Controller:

- Modern and innovative design
- Simple, language-neutral handling
- Integrated humidity meter
